With the table lamp Cygnis our product designers followed the conceptual formulation to create an high-class table lamp with the shape lines reduced to the essentials for a simple, elegant living style.

Together with modern LED technology Cygnis captivates with its puristical elegant design and high functionality. The ultra flat 6W LED surface machtes the clear, geometrical shaped lines and provides a

clear, warm white light output. The switch of the 41 cm high, entirely aluminium produces designer lamp is included in the connection lead. With the integrated LED driver in the mains plug the lamp is ready for use with 230V.
